Ayman AlShehri

Riyadh, Saudi Arabia – +966 550832888

Backend Developer | PMI-ACP | CKAD

aymalsh@gmail.com - linkedin.com/in/aymanshe

Summary

Bachelor's in Software Engineering from Concordia University with more than 5 years of strong web development and database design experience. Demonstrated expertise in professional diplomatic communication, team leadership, and educational mentoring. Certified Kubernetes Application Developer (CKAD) and PMI Agile Certified Practitioner (PMI-ACP). Passionate about continuous learning and leveraging technology to improve lives. Committed to excellence and adhering to the highest standards in delivering quality products. Interested in Cloud Computing, Mobile Development and Game Design. Known for honesty, flexibility, organization and collaboration.

Education

Bachelor of Engineering, Software Engineering Aug 2022

Concordia University, Montreal, Quebec

- **Dean's List:** 2021-2022

Work Experience

Technical Team Leader October 2024 – Present

RQM Business Solutions, Riyadh, Saudi Arabia

- Led cross-functional teams in the design and delivery of scalable software solutions, aligning technical strategies with business goals to drive impactful outcomes.
- Championed code quality, system architecture, and agile practices, fostering a high-performance engineering culture across distributed teams.

Database Instructor and Internship Advisor July 2022 – July 2024

Canada College, Montreal, Quebec

- **Course Development**: Developed comprehensive course materials and taught database design and programming concepts, achieving a 100% pass rate by simplifying complex topics for college-level students.
- **Internship Mentorship**: Guided over 50 interns, enhancing their career readiness through mentorship and professional collaboration with employers to ensure proper support.

.NET Software Developer Jan 2019 – Dec 2021

Ministry of Justice, Riyadh, Saudi Arabia

- **Najiz Platform**: Contributed to the Najiz platform, the Unified Platform for Electronic Justice Services.
- **Tech Lead:** Led a team of 4 developers for 10+ months, gaining management and operational expertise.
- **Improved Communication**: Established efficient communication channels between management and the development team, enhancing progress visibility and ensuring precise business requirements.
- **Agile Philosophy**: Successfully introduced and implemented agile methodologies, increasing team productivity and improving the overall health of the product.
- **Web API Services**: Designed and developed efficient Web API services for seamless data exchange and integration with internal and external systems.
- **Website Development**: Developed, refactored, and maintained a complex website with multiple database technologies, optimizing usability and reliability to meet growing customer needs.

Web Developer and IT Technician Dec 2017 – Dec 2018
Bayan Gardens School, Khobar, Saudi Arabia

- **LMS Development**: Developed an LMS-like website for teachers, revolutionizing the sharing and accessibility of educational materials for parents and students.
- **Teacher Training**: Trained teachers in the effective use of smart boards, empowering them to leverage technology in the classroom.
